ALBA CARMONA, singer

A scholar of traditional music, Alba Carmona has spent years moving between the sounds of various folk traditions and modern music.

She has performed on countless stages around the world and has recorded albums alongside artists from whom she has continuously learned and shared experiences—Perico Sambeat, Carlos Saura, Chano Domínguez, Las Migas, Mauricio Sotelo, and Miguel Poveda.

CANTORA is Alba Carmona's second solo album. With her captivating, versatile, and deep voice—marked by a strong personality and unique identity—she takes us on a journey through different genres, languages, and musical styles, blending traditional songs with original compositions.

CANTORA is made up of a collection of 9 songs with a wide range of themes that immerse us in the rich world of Spanish and Latin American folklore. From lullabies to prayers, from farewells to hope... CANTORA is born from the motivation of three core elements: expression as the main focus, the importance of folk poetry, and the authenticity of traditional music.

CANTORA is a sonic tapestry that evokes vivid imagery and intense emotions, celebrating the diversity of musical expressions from different regions and countries. It honors the essence of folk music while elevating it with contemporary sounds and elements.

CANTORA is also a tribute to the musical roots that have shaped Alba Carmona's cultural identity.
